

Polyglaze®

PZ SCALE CLEAN

PRODUCT DESCRIPTION

An acid-based cleaner formulated for the removal of hard water scale, efflorescence, cement residue, and yellow stains from acid-resistant tiles, sanitary surfaces & fittings. It provides fast and effective cleaning of construction-related residues.

AREAS OF APPLICATION

- ◆ All types of tiles
- ◆ Tap and other sanitary fittings
- ◆ All acid-resistant surfaces

ADVANTAGES

- ◆ Effectively removes lime scale, hard water stains and efflorescence
- ◆ Fast-acting and easy to use
- ◆ Restores original shine of tile and fittings
- ◆ Minimizes labour time in post construction cleaning

PACKAGING

- ◆ Polyglaze PZ Scale Clean is available in 1L, 5L bottles and 25L cans

STORAGE & SHELF LIFE

- ◆ Store in a dry place away from moisture and sunlight
- ◆ 24 months from the date of manufacture in unopened sealed condition

PRECAUTIONS & LIMITATIONS

- ◆ Always perform a patch test on a small area before full application to check for surface compatibility and desired results
- ◆ Do not use on acid-sensitive surfaces
- ◆ Ensure adequate ventilation during indoor use
- ◆ Do not mix with bleach or other chemicals
- ◆ Clean all tools with water immediately after application to prevent damage
- ◆ Mix well before use

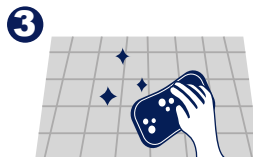

APPLICATION METHODOLOGY

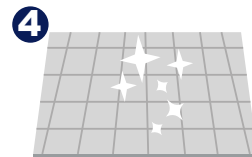

1 Clean the surface with water. Ensure it is dry and dust free.

2 Apply Polyglaze PZ Scale Clean on the surface using a brush, cotton cloth or sponge

3 Leave it on the surface for 5-10 mins then scrub away the stains and dirt with a white pad or scrubber.

4 Clean the surface thoroughly with water.

PHYSICAL PROPERTIES

Physical Appearance

Transparent Liquid
