

# Polyglaze®

## PZ SPARKLES

## GLITTER ADDITIVE FOR EPOXY GROUTS

### PRODUCT DESCRIPTION

Polyglaze PZ Sparkles is specially formulated to provide a glittering / sparkling effect to tiles joints when mixed with Polyglaze PZ SF Epoxy Grout. It enhances the aesthetic appeal of tiled surfaces.

### AREAS OF APPLICATION

- ◆ Suitable for Internal and External Areas where Epoxy Grout is used
- ◆ Suitable for all types of tiles and natural stones

### ADVANTAGES

- ◆ Can be used readily - Just mix with Polyglaze PZ SF Epoxy Grout
- ◆ Adds a premium glitter finish to tiles joints
- ◆ Available in three colors (Gold, Silver and Copper)

### APPLICATION METHODOLOGY

#### Surface Preparation

- ◆ Clean and remove any loose particle, debris and dust from the tile joints before grouting
- ◆ Ensure joints are dry before grouting
- ◆ Grouting should be done after 24 hours of tile fixing
- ◆ Use masking tape along grouting area to protect tiles / stones

#### Application

Polyglaze PZ SF Epoxy Grout consistency can be adjusted to suit the application and site conditions by varying the quantity of Part C added to the mixed Part A and Part B (of Polyglaze PZ Sparkles)

- ◆ Take 2 Parts Resin, 1 Part Hardener and 8 Parts Filler powder by weight
- ◆ Pour Part A (Resin) & Part B (Hardener) in a clean mixing pail as per given ratios
- ◆ Mix the portions until liquids are completely blended

- ◆ Add Filler Powder to the paste and mix the portion until filler is dispersed
- ◆ Then add 'Polyglaze PZ Sparkles' to the mix until a uniform color and lump-free consistency is achieved. The dosage of sparkle can be adjusted between 2-6% of 'Polyglaze Stain Free Epoxy Grout' (Resin + Hardener + Filler) as per customer's requirement of aesthetic look
- ◆ Before application wear gloves and fill the joints with the help of rubber trowel/grout float
- ◆ Remove excess material by using the rubber trowel or any other appropriate tool, perpendicular to the tiled surface
- ◆ Use the epoxy grout paste within 30-45 minutes (depending upon local temperature)
- ◆ Clean the surface with a mild soap water solution and a sponge, then dry with a clean cloth
- ◆ Tools must be cleaned with water immediately after use

### PACKAGING

- ◆ Polyglaze PZ Sparkles is available in 100g bottles

### STORAGE & SHELF LIFE

- ◆ Store in a dry place away from moisture and sunlight
- ◆ Best before 36 months from the manufacturing date in original sealed condition

### PRECAUTIONS & LIMITATIONS

- ◆ Ensure the product mix is homogenous before application
- ◆ Protect the grout area from direct sunlight/intense heat or rains
- ◆ Ensure a minimum 24 hours of interval between tile fixing and grouting
- ◆ Do not add additional Filler or Sparkles to already prepared paste
- ◆ Do not add or dilute with water

# TECHNICAL DATA SHEET

## PHYSICAL PROPERTIES

Color	Gold, Silver and Copper
Density	Approx. 0.40 - 0.50 g/cc
Particle Size	Approx. 0.2 mm
Water Solubility	Insoluble in Water
Melting Point	> 170°C
Mixing Ratio	Approx. 2 - 6% of weight of Epoxy Grout
Pot Life @30°C	Approx. 30 - 45 minutes
Joint Width	2 - 20 mm
Application Temperature	10° C to 40° C
Time to foot traffic	24 hours

## HEALTH & SAFETY

- ◆ Use a respiratory mask and protective gloves during application.
- ◆ Clean hands with soap and water after application.
- ◆ Avoid contact with skin / eyes. In case of unlikely contact, rinse eyes immediately with plenty of clean water and cleanse skin with soap and lukewarm water. Seek medical advice if irritation occurs / persists.
- ◆ In case of unlikely swallowing, seek medical attention immediately.
